

This is a height chart for

 who I help to Blossom!
 LoveXX

Help your child blossom...

To your child you are the best person in the world. Like a precious flower, you grow them from a tiny seed. You feed and water them. You protect them from all kinds of weather. You care for them when they're wilting.

So don't let anyone undo your good work by smoking around your little flowers. And don't be afraid to tell ANYONE not to smoke in your home.

Because smoking anywhere near a child causes them harm. From life-threatening breathing problems to cot death (Sudden Infant Death), the list of conditions caused by second hand smoke is uncomfortable to read.

For free, friendly advice on stopping smoking contact **Dudley Stop Smoking Service** on 0800 0850 652 or visit www.dudleystopsmoking.co.uk

For more information on Safe Sleep contact the **Infant Sleep Information Source** at www.isisonline.org.uk

Right here in Dudley every year there are hundreds of cases of children suffering

- ♥ lower respiratory tract infection
- ♥ middle ear disease
- ♥ newly diagnosed wheeze and asthma
- ♥ bacterial meningitis...

...all probably caused by someone smoking around the child.

Always be the one your child can rely on. Keep them right away from smoke. Because Smokefree Children Blossom.
